

FULL-TIME (M/F/X), BEGINNING IMMEDIATELY

FULL STACK DEVELOPER

YOUR TASKS

- develop components around slicing and hatching for 3D printing in Metal Powder Bed Fusion
- active participation in innovative projects in the field of additive manufacturing/3D printing
- create full-fledged APIs
- create new tools and algorithms and combine them with industry-leading knowledge from your colleagues to lead the way for feature success

OUR REQUIREMENTS

- experience in coding – working on projects in an educational environment or professionally
- willingness to learn and continue to evolve as a developer
- strong interest in industry standards and best practices
- hands-on mentality: independent, solution-oriented approach to work
- communicating in different languages (English and German) doesn't scare you

YOUR PROFILE

- you love coding and enjoy problem-solving
- you are a team player and quality-conscious
- you are interested in additive manufacturing and 3D-printing
- you have completed adequate education (HTL, Uni, FH)
- you speak English fluently, even when it comes to technical issues

WE OFFER

- flexible working hours and independent work in a young team
- flat hierarchies and a pleasant working atmosphere
- participation in training classes and conferences
- technically challenging projects with international customers
- exciting employee events
- good coffee and table football

SALARY

The **monthly salary** starts at **EUR 2.635 gross** upon a full-time employment basis.
Willingness to pay more based on qualifications and experience.

We, CADS Additive GmbH, are on our way to dominate the 3D printing world with our slicing and hatching software AM-Studio.

It is our mission to infect the world through innovation and determination in our products and components, which can be found in well-known additive manufacturing software and hardware providers worldwide.

Our company is home to a bunch of interesting people, skilled and dedicated to do their work, but also fun-loving and open-minded for all aspects of life. We are makers, industry experts, 3D printing enthusiasts and overall: a group of great people who enjoy working together.

If you want to play a round of table soccer with us or even dare to pick an office nerf battle and enjoy the social gathering afterwards – **then join us!**
